

***Get rid of the annoying wires ,  
enjoy VoIP wireless freedom !***

- Support any language display and reviewable contact list
- Compatible with Skype, MSN, VoipBuster, eyeBeam...
- Rubber paint, nice touch

Want to talk to people through the internet but are tired of being bundled with PC ? Then Yealink USB-W1DL is the best VoIP choice for you! It is a USB wireless phone which allows you to call from anywhere in the house or at the office. Due to the large graphic LCD with blue backlight, USB-W1DL can show the contact list and call history in any language. Its stylish compact design, built-in speakerphone in the base and the fully compatibility with the most popular softphones make it a pleasure to everyone.
