Room-to-Room Mobility (SMART UX60 Only)

Can pivot through a 29 1/2" (75 cm) doorway in a standard wall

👉 **IMPORTANT**

• The floorstand with the SMART UX60 projector system is designed to pivot to pass through a doorway. Passages or other obstructions leading to or from the doorway can hinder pivoting, and the floor stand might not pass through.

• The floorstand with the SMART UF55 projector system is designed for in-room mobility only. Because of the length of the projector boom, it will not pass through standard doorways.

EU WEEE, EU RoHS, US CPSIA, packaging laws and China's Electronic Information Products regulations

CSA, CE, C-Tick and FCC

Warranty
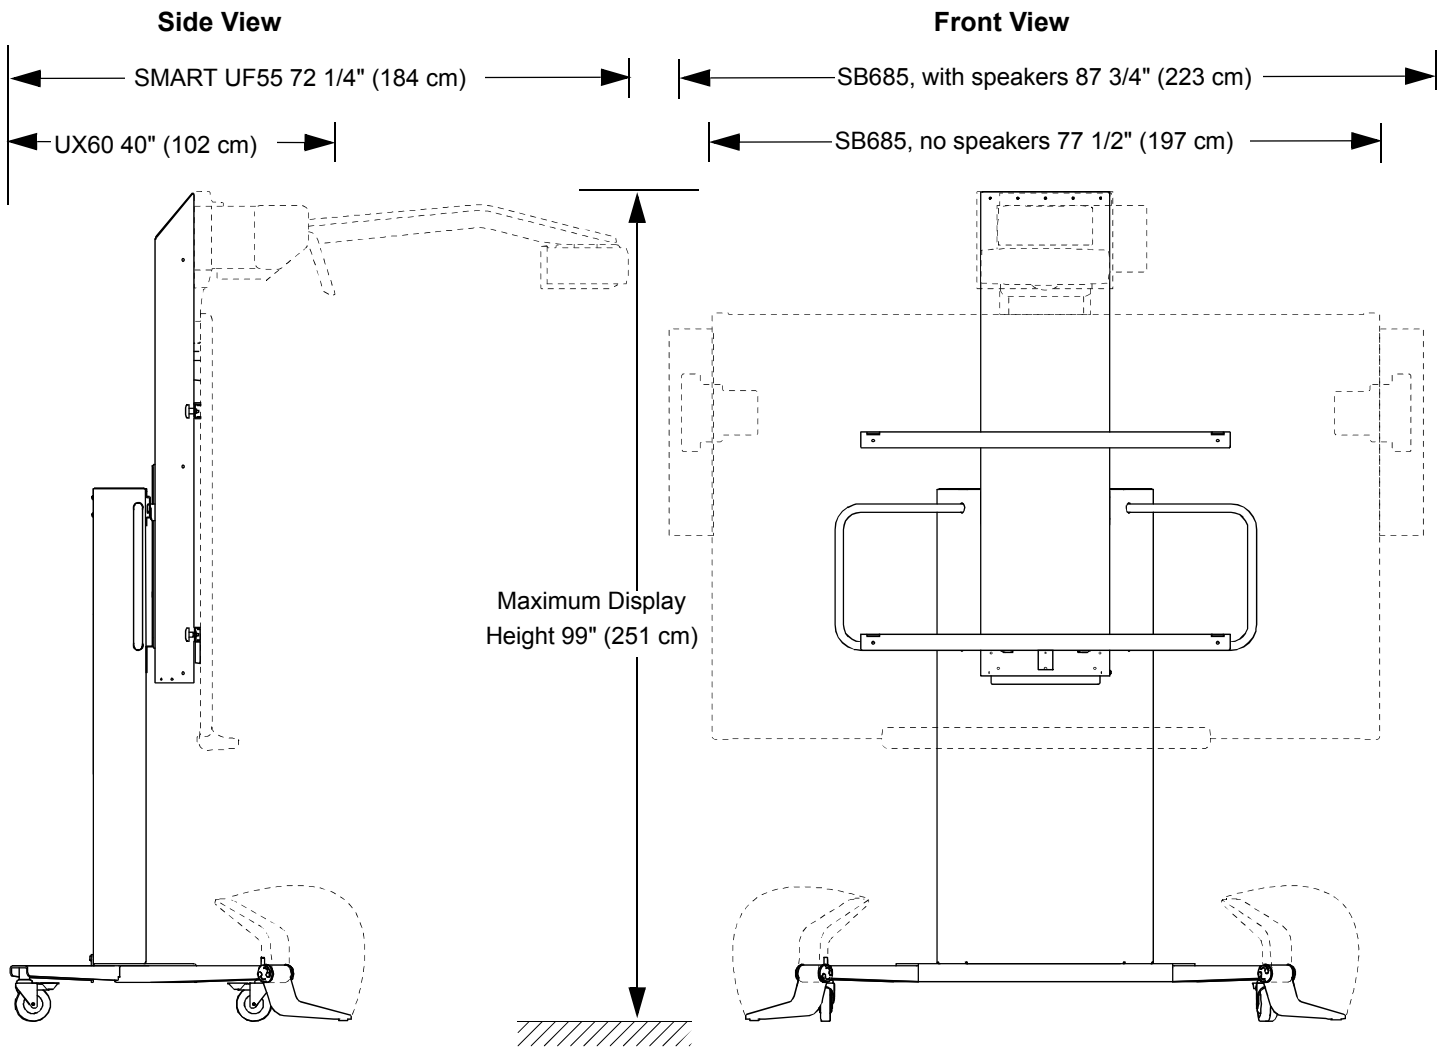

Two-year limited equipment warranty
